

Here in Iowa, we are susceptible to all sorts of severe weather and natural disasters. Some Iowa communities are still recovering from the flooding and storms in 2008 and 2010, and many more are preparing for possible flooding in 2011.

I am committed to helping families, businesses, and communities prepare for, fight, and recover after flooding and damaging storms. Please continue to visit my website for the latest information about disaster preparedness and disaster relief.

Additionally, my staff is here to help you, your family, business, and community. If your property has been damaged or you have questions about disaster preparations and recovery resources, please contact any of my district offices and my staff will work hard to help you.
